I'm sure many of you guys have already seen the video puzzle ring of a farming butcher. Well let me improve it a bit for you puzzle ring Goblin Farming 1.0.4 - YouTube for those who haven't. Still. In the video, they use the Butcher. I've found that any of the action bosses will reset this. I'm not 100% on other bosses, but I believe it should work for anyone I've only tried to act bosses. So here are some tips. I personally use Belial in Act 2, since at the beginning of the meeting it is only those snake guards. Let them hit you, gg goblins. When you're restacking your neph, if a goblin puzzle popped out of you, you have to wait (edit) 15 minutes in order to reset, even if you're doing a boss meeting, so don't worry and wonder why its broken suddenly. The law does change the drops. Let's say if you do this on Act 3, you're going to find a higher rate of 61-63, since it's Act 3. I'm going to check this out on other act mini-bosses to see if it works. I'll get back to you all on it. EDIT: According to the blue post, goblin is always level 61. He did not turn into a higher-level goblin, being in another act. However, after 5 hours of testing, I noticed a dramatic increase in iLvl on items dropped while being in Act 3. Call it RNG, but I personally feel after hours of testing that mining is better in higher acts. The latter, edited by Shift; 09-03-2012 at 04:00. These ads disappear when you log in. can't make it work on azmo. it just doesn't breed I've done it on Asmo, Belyal, Butcher and Iskatu repeatedly. I'm doing it on The Virgin of Lust right now. Originally published as Madara99 can't make it work on Azmo. It just doesn't spawn and check if you had its caviar on the way to asmo, you have to wait 15 minutes. It is better to remove the ring while you ge 5 stacks, but ring in front of it, and wait 5 minutes for the ring to become active. The ring takes 5 minutes to put on it provided the goblin timer has not been installed. Yes... like how many hits do I need to take? Because I play a wizard, its not the way I can stand afk and get hits from it edit I just read that 15min CD stats when you first equip it ... this will mean I have to wait 15 minutes before I boss or equip it sooner. I didn't do it, I only equipped it when I started bossing. that could solve my problem. or 5min, as u said. But it works now! The Great Last edited by madara99; 09-03-2012 at 03:25. Confirmed it works for the lust maiden, making it a lot easier with her little spider spawning. By the way, you only have to wait 5 minutes when you first equip the ring. If it spawned a goblin, though, the CD seems to be 15. If someone has a puzzle ring and wants it's with me, let me know. U.S. servers. Must be able to take a few hits in Act 3 though. Yes his 5, sorry. going to do it on girl lust is probably the best way you're at us servers? Want to run together? PM me for battletag sorry not not not / Notice 2 things so far at first, when I go for a refreshing NV fan, I get a 15min CD automatically without even getting hit/spawning goblin at all. secondly, I have killed goblins now 39 times and No 63 points at all, I wonder if they were nerfed some time ago? How were your drops. shy? Now I had a few 63 drops last edited madara99; 09-03-2012 at 05:56. I've never had it reset until 15 minutes if I get hit. Act 1 just made another hour, Level 63 Act 3 did another hour, 10 63 act 4 did 20 minutes without stacks..... 4 63s it was in running with 2 rings btw I mean there is a blue post saying goblin is always the act of 1 hell goblins regardless in hell, which is level 61, but my drops said something completely different. It may be a level of 61 goblins, but it still seems to drop more into higher difficulty. Blizz has already stated that this ring is only act1 hell gob. even if you are in act2 3 4 I am well aware of this. Now try actually using the ring in various acts and tell me that you will find the booty wise. I personally noticed the difference in the 12 hours I use it. does it work when you trade one ring among 3 PPL? does this to reset the cooling when the goblin generates the last edit eigah; 09-03-2012 at 10:32 a.m. What if you have 2 rings? Do they share the coolness? So here's the problem: I've been trying to farm ring puzzles to open a repository of greed for a while now. I've seen the video and I'm following it, but it doesn't work. I'm on my demon hunter, lvl 31 (according to the graph I saw on this lvl only 3 legendary rings are available on Kadala, one of them is the ring puzzle), torment 6. I've already changed like 5k bloodshards, but still haven't got the ring! Am I doing something wrong? Thank you for your time. Edit: thank you all for the suggestions! I think I just farm it off my core for the season. She's a barbarian on t13. I will improve it and farm it to achieve the season. Thank you! Page 2 12 comments hey guys, its been a while since I posted anything, but I found something that I thought you might all want to see. So.... jst this, get a puzzle ring so you can kanai cube it and open the vault. Then get to fight greed, and farm goblins from it until it stops dropping goblins, then let it kill you, so you can rekindle the city, re-start fighting the boss, and farm more goblins. rinse and repeat as many times as necessary. Get tons of Legendary, Death Inhales, and Craft Materials. Heres the video I made it if any of the yall want to check it out. www.youtube.com/watch?v=2LZamq90mAU Agriculture's: Legendary Diablo III Rings Edit Share Puzzle Ring Legendary Ring in Diablo III. It requires a level symbol of 29 to fall. Bearing ring puzzles will prevent the player from getting common items for crafting. Rare fallen items always have 6 affixes, and the counter is saved through death and place change. Items dropped by the player, including those purchased from suppliers, will not be it also does not select items intended for transmogrification. According to Patch 2.3.0, you can transmute this ring in Kaa's Cuba (destroying it in the process!) to open a one-time portal to the Treasure Kingdom. Note that while you can use a Ring of any level (not necessarily a maximum) to open a portal, lower-level rings will therefore reduce the yield on the Vault, even if the maximum-level character is actually running. As 2.6.5 is corrected, the use of the Ancient or Primary Ring, by contrast, will increase the complexity and reward of the Vault, replacing each Goothing Sentry with the treasure of Goblin. Visually, the Ancient Vault will be much darker. Stats (level 29) edit the source of Puzzle Ring Legendary Ring Properties: Calling the Treasure Goblin, which raises the normal quality of the items for you. Each configuration reveals different magical properties. The legendary Diablo III Rings Community content is available in accordance with CC-BY-SA, unless otherwise stated. What is a puzzle ring? Why do you want one for your character when you play Diablo 3? Well, the answer is simple and complicated. This is simple because the ring puzzle is an accidental drop mining the legendary ring. While equipped, the ring provides you with the occasional Treasure Goblin, which will run around picking up all the white quality garbage vendor, so you don't have to. In addition to vacuuming all white items, it will accidentally drop an uncommon, rare or even sometimes legendary item for every 12 to 16 normal quality items (aka supplier garbage, aka your crafting components) that it picks up. So far, pretty simple. Not the power you would like to use in Kanaya Cuba or otherwise get out of your way to get, right? Think so... but that doesn't mean you don't want to ring the puzzle. Because it turns out that there's actually a very good reason to use a ring inside The Kanai Cube, and it doesn't apply power to your jewelry slot, either. The kingdom of greed When disappointed in Kaa's Cuba and only in Kaa's Cuba, not to break it into a blacksmith ring has another, much more interesting ability. It opens a portal to the realm of greed, also known as the treasure kingdom, also known as so many to rob all the goblins to take all the loot you turn into Duffy Duck in that one episode with a treasure cave is exactly the same. When you place a puzzle ring in Cuba You can use it to open a portal in this huge and amazing kingdom full of loot. But beware - while most demons in the realm of greed are a minor inconvenience at best and a slight inconvenience at worst, in the case, one demon out there who will provide a more challenging task. This demon is greed itself, and not only is it not a pushover, but you often find yourself in a quandry while fighting it. If you go full bore after greed and kill her as fast as you can, then there will be less treasure goblin spawning while fighting for you to kill, and once greed dies, any survivor of the Goblin Treasure will run and take all the loot they have on them with them. A piece of loot is worth more unused so for the more lucrative Treasure Haul, you have to take it easy on greed and focus more of your efforts on killing goblins. But if you do this, you increase the chances of greed killing you, and the amount of damage to the area and the charges it can do can kill the player in one blow to the higher hardship difficulties. Is it ultimately up to you - do you want to make hundreds of millions, maybe even billions of gold and increase your overall prey, or do you want to burn greed quickly so it doesn't kill your lot? Ring puzzles are a fascinating drop in Diablo 3 entirely because it's often better used in a cube than worn - one successful Realm of Greed Treasure Haul can put you in billions of gold and will mean you never have to worry about how much it will cost to transmute gems or items ever again, and that's not even counting with the help of ancient or primal ancient ring puzzles that will increase production and difficulty properly. So the next time one of these rings falls for you, remember that the ring is worth a lot more than if you wear it.
