Home Wreckfest Wreckfest: Table for Cheat Engine (Csimbi) Well, it's a good flatout clone from Bugbear, but a bad try. I don't mess around with coins and XP, they are easy to find. So here's something less simple: God's mode. This script will ensure that your car does not break, even if it is already flat Very excessive sudden damage can, in theory, kill you, but I have not had such problems for hours. Adopting this scenario should be very easy to set the health of all other cars to 1 (instead of max) for the quick destruction of all other cars, but once again, I do not bother. I do not plan any support for this scenario, as the game did not meet my expectations. The update #1 added that low bit of enemy health. Damage to the car's armor (such as crashing into them) is still required. This default 1.0 will cause soft targets to die off with ease, but it can take a longer hit or a few smaller ones to get through the armor of stronger cars. Installing it on 0 will result in their crash instantly on the first kick that hits through the armor, no matter how small - it's perfect for an oval track with all school buses (survival). Update #2 Added torque mod. Once turned on, you can keep hotkey while driving to change the torque on the fly. While this is not the equivalent of the flatout nitro capability (as it only changes torque to one), you will notice noticeable changes in your acceleration. Default 2 - it doubles the default torque. I think so much, but I'll let you know what's best for you. Hotkey ctRL is the default - but you can change the scanning code at the top of the script. With Wreckfest, the original developers Flatout 1 and 2 deliver the ultimate car playground video game. Burn the rubber, ram everything and everything and shred the metal disc hard - die last! Thanks to the realistic physics engine, all takedowns look fantastic. Exclusive balancing options are available to all gamers in our 2018 MegaTrainer. Published time: 2 Pm: 02: 02, 2017 9:16am Image caption 0:32pm :3723 A Post by chukchwang , Sat Jun 23, 2018 10:12am READ MORE: 49420, member: 3723 Well, this is a good flatout clone from Bugbear, but a bad try. I don't mess around with coins and XP............ (/CIN) Hi, thanks for the wonderful scripts! But alas, after updating number 2, I happen when the first generic option is included. I use CE 6.7, the pirated version of the game and Windows 7 x64. And what version did you use? Thank you for your response! (URL- / URL -- Csimbi RCE Screen Fanatics Messages: 457 Joined: Sat April 29, 2017 9:04pm Reputation: 478 Post from Csimbi Sat June 23, 2018 6:19pm Steam, original unpatchedThat screenshot shows that script is on. Therefore, registered symbols should appear. I wonder if it's some kind of mistake. Last edited by Csimbi on The Sun June 24, 2018 at 11:52AM, edited twice in total. AlexS Expert Cheater Messages: 109 Joined: Sun Apr 08, 2018 3:46pm Reputation: 73 Post from AlexS Thu Mar 12, 2020 7:07pm (Google translation) I won't create a new theme, I'll post a table here, maybe someone will come in handy. Tested on the game version 1.256814. In the main menu of the game BaseS script, and then activate the options you want to use. No damage - no damage to the player's car. The damage counter does not decrease, the car is not destroyed or deformed. Super car - higher speed and and Driving. Finish the race always first - after the first lap of the track the player's car is always in the first position in the race. Leadership achievements in several circles are calculated. Slow Player Timer is a lap timer for a player 2 times slower than for rivals. Achievements are counted to complete the fastest lap. Sorry for the bad English ... Apps Wreckfest_x64_v1.
