I would have liked it better if it were more extensive, more objects, but is a good tool for those of us beginning to recognize the dreams that come from God. Recognized as a minister who discovered God, awakened dreams and brought people closer to Jesus, John Paul Jackson (1950-2015) has been an authority in the biblical interpretation of dreams for over thirty years. He renewed his passion for people of different faiths and age groups with his sincere explanations of the inexplicable mysteries of life and allowed people to relate to God and others in a fresh and meaningful way. As an inspirational author, speaker, teacher of true spirituality, and host of the television program Dreams and Mysteries, John Paul has enlightened hundreds of thousands of people around the world. He found satisfaction in his role as a youth mentor and counselor to Church and national leaders, as well as in promoting spiritual art. \$69.99 A collection of all 9 John Paul Jackson books on 44% savings from individual retail prices!
